

NurseTab NurseCall Interface ESKS

Art.: ERTH0014

Description:

Room electronics for connection to a NurseTab touch terminal.

Voltage supply via NurseTab touch terminal.

Pushbuttons and room signal lights are connected to ESKS. Furthermore, input/output-based appliances or pushbuttons can be adapted to this room electronics.

This basic version of ESKS can analyse up to 6 different call types

Technical specification:

- Input/Output Voltage: 24V
- Number of inputs: 6
- Number of outputs: 6
- Current consumption: 75mA
- Dimensions: 47 x 54 x 16mm
- Weight: 23g
