

Wireless dry contact interface

Art.: ERTW0014-3

Description:

Wireless dry contact interface adapted for integration with Nursecare room terminal/controller

Technical specification:

- One dry contact input
- Continuous monitoring of operation
- Display of location
- Enables triggering of different event types
- Includes special battery pack (2x AAA batteries)
- Frequency band: 2.4GHz (Bluetooth)
- Voltage: 3VDC
- Dimensions (W: 26mm / H: 63mm / D: 16mm)
- Weight: 50g
- Operating temperature: +5°C - to +55°C
- Operating humidity: Up to 85%, non-condensing
- Compliant with CE certification requirements
