

Autonomous controller for NurseCare System with Dementia function

Art.: ERTW0037

Call and reset button for patient room / toilet

Description:

Autonomous wireless controller for NurseCare system with Dementia function with integrated LED lamp (red, green, blue, white) and specially directed signal coverage.

Specifications:

- Including specific dementia functionality
- works autonomously as a stand-alone unit with specially directed coverage
- Automatically makes a SOS call
- Adjustable detection range

- Receives signal from NurseCare nurse call system units
- Receives signal from NurseCare units for staff protection
- Possibility of integration with other sensors
- Possibility of wired and wireless connection to nurse call system elements.
- Includes location functionality
- Installation on wall or on ceiling

Technical specification:

- Frequency: 2,4 GHz
- Transmission power 10 mW
- Voltage IN/OUT: 24VDC
- Dimensions of housing (W: 220mm / H: 220mm / D: 108mm)
- Weight: 1000g
- Compliant with CE certification requirements
- Compliant with DIN VDE 0834 requirements
