

# Nurse call pear push button with speech connection and light control (WiFi)

**Art.: ERTW0108-1**

## Description:

Handheld pear-push button for triggering of calls, switching of a light source (Normally open type toggle relays) with speech connection over WiFi.

## Technical specification:

- Connection over WiFi network

- 
- Possibility of remote unit configuration
  - Red call button
  - 2 buttons for lamp control
  - Alarm on pulling
  - Location light
  - Optical call display
  - Plastic housing
  - Connection cable 2.5 m
  - RJ45-pulling adapter for connection to Nurse call cord socket
  - Including a special plug that enables disconnection by (unintentional) power-pulling without any damages.
  - WiFi connectivity for transmitting speech to an IP network
  - 802.11 b/g/n (802.11n up to 150Mbps) Wi-Fi protocol
  - Frequency: 2,4 GHz
  - Transmission power 10 mW
  - Voltage IN/OUT: 24VDC, 0.5A
  - Weight: 230g (including cable)
  - Dimensions: 12,8cmx6cm (H/W)
  - Compliant with CE certification requirements
  - Compliant with DIN VDE 0834 certification requirements
